From start to finish. Grind, press, brew. Coffee at it's finest. Make your own favorite coffee drinks with ease with this machine. The Breville Barista Express comes with a grinder, a press, a milk steaming wand as well as water reservoir and built in heaters to make your next coffee drink yourself without spending all that money everyday going to these coffee shops. This machine retails for 600 dollars, I'm in need of money so I'm selling mine for 450 dollars and it's in very good condition with all the books and accessories that came with it new.
